

SAVING TCU800 SETTINGS TO USB

1 Is the unit currently powered on?

No:

Continue to step 2.

Yes:

Skip to step 3.

I don't know:

Tap the screen once or twice and wait a second. If the display comes on, then the unit is powered up.

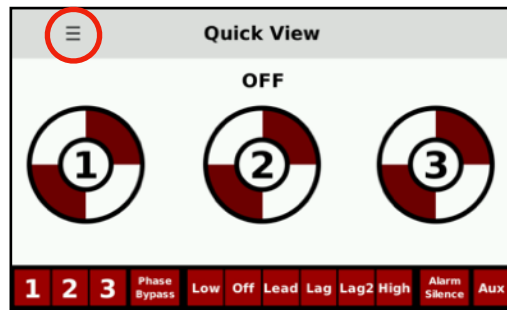

2 Remove the existing TCU800 Configuration USB (if present).

Power on the TCU800 by pressing the home button and wait until the unit has reached the main home screen.

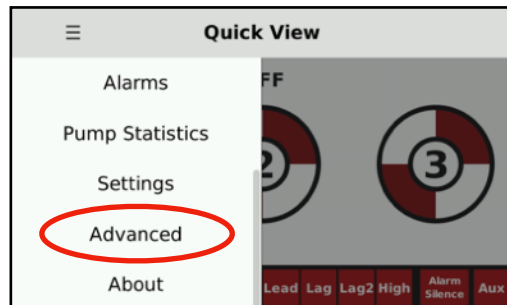

3 Tap the hamburger menu  in the top left of the screen.

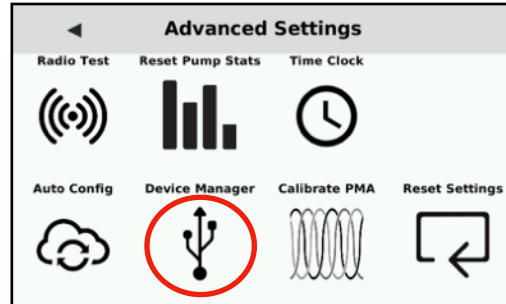

If you do not see the  icon, tap anywhere on the screen once and it will appear.

4 Tap **Advanced**.

5 Tap **Device Manager**.

5 Tap **Save Configuration to USB**.

6 Wait for the prompt to say “Export Successful,” then tap **Ok**.

If a message indicating “No USB detected” is displayed, then there may be a problem with your USB flash drive. It should be removed and replaced.

7 Is this configuration USB drive going to be left in the unit during normal operation?

Yes:

Press the Home button to return to the main screen.

No:
